## 12 week 'Building Skills' Training Course

At Campus we are excited by the future of construction. In conjunction with industry, the Government published a shared 2025 vision. The vision sets out stretching targets which will only be delivered by thinking differently. To achieve such radical change we need new skills and new talent. Campus seeks to bridge the gap between today's skills and those required tomorrow. Our priority is to equip people with the right skills for the emerging construction industry

### Course Description

Our training is split into 12 weekly modules, giving learners experience in a wide range of professional activities. For course information, please visit [www.bimcampus.co.uk](http://www.bimcampus.co.uk)

All training is delivered by a specialist in their field and combines lecture, demonstrations and hands-on practice. Guest lectures are scheduled throughout the course to gain valuable input from industry experts. This is an intensive, full-time 12 week course, which runs Monday to Friday, 9am to 5pm. Please refer to our website for course start dates.

### Entry Requirements

To be eligible for this course you must be aged 19 up to 24 years old at the commencement of the course. You must be not currently be in education, employment or training (NEET), however if you are in your year out or placement year you are eligible.

### What the learners receive

Our course isn't just about teaching software; we provide a lot more than that.

- Teach relevant and useable skills
- Support professional and personal development
- Provide experience working in a professional environment with professionals
- Increase your professional profile and enable networking opportunities
- Guidance and support with portfolio and CV creation
- Assist in finding placements/full time jobs

### What potential employers receive

**Employers receive a work ready, talented young professional who is ready to provide instant value to your organisation.**

### Enrolment Information

To enrol, please contact your nearest Campus Training Centre:

**Leeds:** 0844 800 6660

Alternatively, you can enrol online at [www.bimcampus.co.uk](http://www.bimcampus.co.uk)

*"Outstanding course! Couldn't have been better for this stage in my career"*

*"The course was very good in teaching us the software and skills in an interesting and relevant way. I feel much more prepared for work now"*

*"Assisting the students on structural issues and being involved with the project presentations highlighted to us the great value practical training can give to students. The quality of the work was exceptional"*
